Re: MM Docket No.99-25  
Creation of a Low Power Radio Service

We support the many comments that have been submitted requesting that the FCC grant primary status to LP FM's that have been granted construction licenses. Our organization; Auburn Christian Fellowship, shares a licensed LP frequency, 94.3 FM, along with the Auburn Chinese Ministry in Auburn, Alabama. We were granted a construction license on July 13, 2004.

On March 2, 2005 a Notice of Proposed Rulemaking was adopted proposing the allotment of Channel 232A (94.3) as a Class A channel. If the channel is ultimately approved, it will knock us off the air since we are not protected. We have spent a lot of time and money in the development of our station, and are providing a type of programming that is not available anywhere else in the state of Alabama.

Please keep us on the air. Thank you.
